Dear Sir/Madam,

Comex Ltd provided services in asbestos testing and surveying for us on some larger construction projects in Wellington between 2014-2016. Their professional standard and knowledge on asbestos ensured our job could be done efficiently and safely. Whatever issues arose throughout the project, Comex were incredibly flexible at tending to our project needs, even surveying on call-out in the middle of the night in some circumstances - and with a positive, can-do attitude.

The Comex staff were happy to walk through the safety procedures of dealing with asbestos with our construction team. They were thorough in their explanations and helping us to operate as safely as possible throughout our removal processes.

Their survey reports were extensively detailed, well written and easy to comprehend. They were quick and helpful with responses to any questions. Their team is hard working, timely and a joy to work with. I wish them all the best in their future endeavours.

Regards

Matt Brown
