

To Whom It May Concern,

Comex Ltd have surveyed my construction sites on various occasions, from residential homes to factory settings i.e. Griffins Factory. John Kendall has been within the industry for over forty years and I have worked alongside him on many occasions. Him and his team are always very professional, knowledgeable, time efficient and flexible to work with. They are thorough, helpful and eager to deliver the best services possible at all times. I highly recommend their services.

Regards

Ray Excel
